IONIDEA
ENGAGE EXCELLENCE

SCRUTINIZE

To ensure high quality, our team builds test automations with Java, Python, and Selenium.

Prerequisites for the engagement:

- IonIdea's Business Requirements document
- IonIdea's Functionality Backlog
- Test Plan
- Test Procedure
- Test cases for regression suite
- Report on possibility of automation

Deliverables - Test automation scripts:

- We'll generate Test Automation scripts, i.e., Selenium scripts for regression suite in Java, node.js, or Python

Talent Deployed:

Business Analyst, Product manager, Process Architect, AI Evangelist
